

SecureCompliance

As a business you are trusted to keep your customers and employees information secure. In the act of simply collecting data to conduct business, you have an "implied contract" to protect that information. Avoid the risk of sensitive information falling into the wrong hands by shredding it.

At the federal level, HIPAA (healthcare) and Gramm-Leach-Bliley (financial) require specific physical safeguards such as shredding to be in compliance.

Example of shredded materials.

35-gallon and 65-gallon locking roll carts.

SecureConvenient

We provide free locking roll carts, either 35 or 65 gallon size, for storage of your documents for regular scheduled and on-call customers. No advance document sorting necessary.

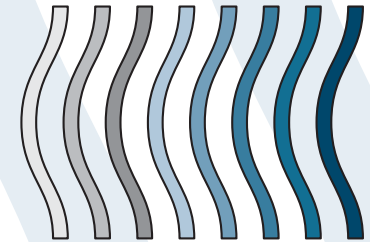

We offer regular scheduled, on-call and one time shredding services, depending on your needs. Large shredding jobs of archived information in warehouses or storage units are no problem.

We also service file boxes and offer walk-in service at our Bend Garbage & Recycling, High Country Disposal and Deschutes Recycling locations. Certificate of Destruction provided for your records. All shredded paper is recycled.

Your Security is Our Priority

SECURE SHRED®

P.O. Box 504
Bend, OR 97709

(541) 382-2263

SecureTrust

Our secure and professional service eliminates any concern over your confidential business and employee information. As a professional member of the National Association for Information Destruction (NAID), documents are destroyed to a size that meets national standards. Our drivers are HIPAA trained and our practices HIPAA compliant.

SECURESHRED® IS A DIVISION
OF BEND GARBAGE & RECYCLING

State-of-the-art truck shreds on-site.

SecureReliable

Why shred your personal information with SecureShred?

- Protect your customers' privacy and help prevent identity theft
- Comply with laws requiring documents are shredded, especially evident in the medical and financial industries
- Eliminate the need for inefficient in-house shredding and wasted employee hours
- SecureShred meets the National Association for Information Destruction (NAID) standards for paper media
- SecureShred offers competitive pricing and will work within your schedule
- Serving Central Oregon since 1995
- Protect your employees' privacy

SecureProtection

The Federal Trade Commission (FTC) estimates that as many as 9 million Americans have their identities stolen each year. Many companies keep sensitive personal information about customers or employees in their files. Casually discarding information, whether in the form of an individual's personal information or company trade information, is no longer acceptable.

Having a sound security plan in place can help you meet your legal requirements to protect that sensitive information.

SecureShred, a division of Bend Garbage & Recycling, provides on-site document destruction at your business or home. We provide the security of knowing your information is completely destroyed at your place of business. The truck can immediately shred large volumes of paper and most types of electronic media.

Your Security Is Our Priority

“SecureShred® is a valued and trusted provider for the credit union and our members. Our highest priority is to protect our member information and SecureShred helps to accomplish that goal.”

Kyle Frick, Mid Oregon Credit Union

“With the services of SecureShred®, we safeguard the private information that is entrusted to us.”

Wes Price, Harrigan Price Fronk & Co.

“Our customers' financial privacy is a priority and SecureShred® is our trusted resource.”
